

## Three Guesses on Result of Election

The political battle has reached the stage where prophets are issuing statements giving their "dope" on the result of the "battle of the ballot" on October 29th. Both Liberals and Conservatives are claiming 137 seats in the new house of 245 members, while the Progressives give the Liberals 120 and Conservatives 80 seats. The following is the forecast as announced by each side:—

### Liberal Forecast

Ottawa headquarters of the Liberal party confidently predict that the result will be as follows:—

Maritime Provinces	15
Quebec	60
Ontario	30
Manitoba	4
Saskatchewan	12
Alberta	7
British Columbia	8
Yukon	1
	137

### Progressive Forecast

E. J. Garland, Progressive candidate for Bow River, recently gave the following summary of what might be expected after voting takes place on October 29th:—

Liberals	120
Conservatives	80
Progressives	40
Labor and Independent	5
Total members in house	245

### Conservative Forecast

Senator Rufus Pope, speaking at Cornwall, Ont., gave the following Conservative estimate:—

Quebec	25
Ontario	60
British Columbia	12
Manitoba	10
Maritime Provinces	25
	137

In the last Dominion House the Liberals held 117 seats and in order to be returned to power they must hold these and gain only 6 others. The Conservatives held 50 seats and in order to get into power they must hold these and gain 73 seats.

## Alberta Political Notes

Joseph LaFrance, retired bank manager, was nominated by the Red Deer conservatives last Thursday in place of Dr. G. C. Wagner, who had declined the nomination for professional reasons.

H. C. McDermott of Whittier, has received the U. F. A. nomination for Medicine Hat.

A. Boleau has withdrawn as conservative candidate in Athabasca, leaving the field to C. W. Cross, Liberal, and D. F. Kellner, U. F. A. This probably completes the line-up of candidates in Alberta, although changes are possible until the official nomination day, October 22nd. There are 46 nominations for the 16 Alberta seats, as follows: Conservatives, 15; Liberals, 14; U. F. A., 18; labor, 2; independents, 2. There are four cornered contests, 13 with three candidates, and two with only two contestants.

The Canadian tobacco crop for 1924 is estimated at 18,710,740 pounds with a farm value of \$4,388,909. The area under crop was 21,377 acres, situated in the province of Ontario and Quebec.

Fi. Lady—"We got a hundred doll. radio set and had the electric come in and attach it."

Second Lady—"That's nothing. We'll do a five hundred dollar set and the sheriff came and attached it."

## Conservatives in Fernie Are Sore at Bennett

"The political campaign is beginning to warm up. Local Liberals took on a new lease of life when R. B. Bennett pulled off a boner at Canmore, when he stated that he would fight for a prohibitive duty on American coal coming into this country. As the Americans would instantly retaliate with a similar duty, which would be disastrous to Fernie, the local Liberals are not losing any time in using their ammunition. Fernie Conservatives would like to take a pot shot at Bennett, who appears to be a man who will promise anything under the sun if he thinks he can get a few votes."

The above item which appeared last week in the Fernie Free Press—a Conservative paper—proves that the "sectional appeal" of the proposed coal duty is not working out to the advantage of all Conservative candidates in the election. "More Duty on Coal" cry coming at the present time of slack work in the Grov fields will, no doubt, help get votes for John Herron and also a few for R. B. Bennett in Wainwright as this seat takes in Canmore, but on the other hand it will hurt Dr. Rutledge, the Conservative candidate in East Kootenay, as the miners in Fernie, Coal Creek, Metch, Natal and Corbin are not anxious to lose their market in the States.

## Summit Lodge A.F. & A.M.

### Have Pleasant Social Night

The officers and members of Summit Lodge No. 80, A. F. & A. M. were "At Home" to their wives and families and members of the Eastern Star on Thursday evening of last week in the I. O. O. F. hall. Cards held away during the early part of the evening and the honor went to Mesdames W. L. Rippon and R. G. Powell, and Messrs. A. Brown and Whitman.

After dainty refreshments dancing was indulged in, music being supplied by the famous Night Hawks Orchestra. The entire affair was very enjoyable, and it is expected that other events of a like nature will take place under Summit Lodge auspices during the season.

## The Sectional Appeal

The published reports of political speeches in Alberta and elsewhere in the Dominion should have a chastening effect on extreme partisans of any kind. The wind is tempered to the lamb to be shorn very carefully. Many things, such as a duty on coal, appeal to the miners here, but are not mentioned by Conservative speakers in Ontario, but as election day draws nearer it becomes more and more apparent that the choice lies between a tariff along present lines and a highly protective tariff on manufactured articles. The party which has been in opposition has an advantage in the discussion in not being forced to completely outline their policy, which permits of variations to suit the different localities, and it requires little observation to realize that they are using this privilege extensively. The existing government must be defended and judged on its record.

An average of a new settler a day is being placed on the Letbridge North-West Irrigation tract, states James Pike, manager for the tract under the provincial government supervision.

# LOCAL, PERSONAL AND GENERAL NEWS

The evening service in the United Church will be conducted by Mr. J. Shevill, of Bellevue. The Rev. D. K. Allan, the pastor, is assisting the Rev. W. T. Young at Blairmore on Sunday evening.

The Victoria Rebekah Lodge gave a farewell social on Tuesday evening in honor of Mesdames Stokes and Smith, who are leaving Coleman in the near future.

The Children of the Church will tender special music at St. Alban's Church on Sunday next at the 21st Anniversary of the Parish.

The local Knights of Pythias are holding social evenings every two weeks on Saturday. Last Saturday evening a large number were in attendance at their gathering and enjoyed one of the finest programs of song, music and recitation ever put on in The Pass.

Mr. D. Gillespie has been appointed secretary of the Coleman local of the Mine Workers' Union of Canada in place of Mr. D. Gillespie, who has gone to Calgary as Secretary of the head office of the organization.

Messrs. Geo. Pattinson, Percy Unsworth and J. F. Lote were Coleman nimrod Wednesday seeking the elusive prairie chicken.

Mr. A. M. Morrison and J. R. Woods motored to Letbridge on Wednesday afternoon.

Mr. E. Houghton secured the contract for putting sawdust in the Coleman Curling Rink, and is now busy extending the job.

The K. of P. building is being used as temporary offices of the Mine Workers' Union of Canada.

Mr. and Mrs. Elias Jones were the winners of the prize at the weekly Whist Tournament at St. Alban's Community Night on Wednesday last. This week Eggots and Peas at 15 cents and next week Pie of Coffee and piece of Pie for 15 cents are the special menu. Come along and have a good time. Community singing.

The new sugar factory at Raymond which commenced operations on Monday, employing some 200 men, should dispel some of the gloom which Conservative speakers are trying to spread.

Messrs. T. Holstead and A. Lonsbury secured a nice bag of prairie chicken in the South country on Saturday last.

The B. P. O. E. Lodge are holding another of their popular social evenings in the I. O. O. F. hall on Friday evening of this week. All members and their families are cordially invited.

Mr. Wm. Bell was in Calgary on Tuesday attending a meeting of the directors of the Alberta Hotel Men's Association.

Chief Houghton, Dr. Tolmie, Joe Emmerson and M. Milo, were in attendance at the Court sittings at Macleod on Monday in connection with the case of Rex vs. Cosgrove. The case was dismissed.

A great Pythian round-up is to be staged in Calgary on the night of October 29th. Calgary Lodge No. 4, Crescent No. 14, Oil City No. 7 and Golden Jubilee No. 85, comprise the district that will convene in the "City of the Foothills" on that date. J. R. Woods, G. C. of Coleman, will take part in this big Pythian event.

The Liberal Committee rooms in basement of the Grand Union Hotel are open each evening, and all workers in favor of a low tariff are cordially invited to attend.

Mr. J. M. Allan installed a radio in his home at Park Terrace last week.

Mr. and Mrs. H. C. McBurney, who have been spending a few weeks in Calgary, and other points in the north, returned home the early part of the week.

The Coleman Light & Water Company is this week calling for tenders for the excavation of 350 feet of water pipe trench and five electric light pole holes in the Grafton town subdivision east of town.

Mr. Alex Cameron returned to Coleman on Saturday last after spending the summer on his fruit ranch at Wyndell, B. C. Mr. Cameron's many friends are glad to have him in their midst once again and pleased to see him looking so hale and hearty after a strenuous summer's work.

Mr. and Mrs. George Neil, who left Coleman a little over a month ago with the intention of taking up residence in the Western States, arrived back in Coleman Sunday morning. Their trip took them as far south as Los Angeles, and they were far from being favorably impressed with conditions south of the line. Mr. and Mrs. Neil intend again taking up residence in Coleman.

Mrs. H. J. Appleton and son, of Yenford, Alberta, is the guest of her aunt, Mrs. H. C. McBurney, 5th Street.

An entertaining moving picture entitled "Social Hygiene for Women," accompanied by a short explanatory lecture was shown under the direction of the Provincial Dept. of Health in St. Alban's Parish Hall on Friday, October 16th. In addition an interesting topical film was shown at 3 p.m., the evening also at 8 p.m. for men and boys. About 70 ladies attended the afternoon performance, and in the evening about 50 men and boys.

## Say It With Flowers

When you require flowers artistically arranged for any occasion, at moderate prices, and of unexcelled quality, phone No. 13, THE COLEMAN TRADING CO., LTD., agents for Frache Bros., Letbridge, advt.

## Protection Sans Obstruction

An old farmer who visited Calgary during the past summer happened to stray to the vicinity of one of their popular parks, and stayed to watch the dancing. He hadn't been in the habit of requesting dance halls of late, and was much impressed with the girls' clothes at that dancing pavilion.

"Some of the ladies' clothes I see here," he said, "put me in mind of a barbed wire fence."

"We asked him why."

"Well," said he, "it's this way—they appear to protect the property without obstructing the view."

## Liberal Mass Meeting Tuesday, October 27th

Mr. J. Heffernan, K.C., M.L.A., of Edmonton, Mr. J. K. Gillis, of Blairmore, and other speakers, will address a mass meeting of the electors of Coleman in the interest of Mr. T. C. Milnes, the Liberal candidate, on Tuesday evening of next week. The tariff and coal question will be thoroughly dealt with. A special invitation is extended to the ladies.

## Voting Takes Place One Week From Today

One week from today, Thursday, Oct. 29th, the electors of the Dominion will elect a new parliament to replace the one dissolved a couple of months ago. The leaders of the two major parties have toured the country from Halifax to Vancouver, and all voters know what the platform of Liberal and Conservative man. The third party, made up of Progressive and Labor have also put their views before the electors.

In Coleman the Progressives have had their meeting as have also the Liberals, and The Journal has carried a report of both meetings. The Conservatives are holding their meeting on Friday of this week, and it is unfortunate that our next issue does not appear until after polling takes place, as we would have liked to accord them the same courtesy as extended to other speakers who spoke here.

However, we believe the electors are fully informed as to the issues each of the candidates stand for. Mr. John Herron, the Conservative candidate supporting Mr. Milnes, is in favor of raising our present tariff. Mr. T. C. Milnes, the Liberal candidate supporting Mr. King, is against raising the present tariff. Mr. G. G. Coote, Progressive-Labor candidate, is also a moderate tariff advocate.

All three men, according to those who know them, are good citizens and either would make a worthy representative for the federal constituency of Macleod.

The tariff is the main issue, although there are as usual a number of side issues. By our votes a week from today, we, the electors of Coleman, will help to decide the tariff policy of Canada for the next five years at least. If you favor a high tariff vote for Mr. Herron. If you are in favor of our present tariff or a lower tariff vote for Mr. Milnes or Mr. Coote. By all means VOTE next Thursday.

There is a possibility that many rumors based on half truths will be set going between now and election day with the object of swaying the vote. The Journal has heard a rather amusing one already, which has been started with the idea of injuring the Progressive-Labor candidate, in which it is claimed Mr. Coote is a retired banker.

The half truth is that Mr. Coote did in his youth collect drafts and keep a ledger balanced in a branch of one of our financial institutions, but like many other young Canadians eventually decided to engage in some other occupation and he took up farming. He is a retired banker in the same sense as is Gladys Lee, who at one time was employed on the staff of the local bank in Coleman.

Make the world safe for the school children!

There is no substitute for a real go to substitute

"Dad," said Tommy, "the teacher said something today about finding the greatest common divisor."

"Good gracious!" exclaimed his father in disgust, "haven't they found that thing yet? Why, they are searching for it when I was a boy."

There is no substitute for a real go to substitute

Make the world safe for the school children!

## Coleman Miners to Support G. G. Coote

At the regular meeting of the Coleman local of the Mine Workers' Union of Canada held on Sunday afternoon last, it was decided that the interests of the miners would be best served by supporting and voting for Mr. G. G. Coote, the Progressive-Labor candidate in the approaching election.

Fifteen members of the union were appointed as a committee to work for Mr. Coote's election and to act as scrutineers at the polls on Thursday of next week.

## Coleman Elks to Stage Monster Xmas Tree

At the regular meeting of Coleman Lodge No. 117, B.P.O.E., on Friday evening of last week it was decided that the Elks would play Santa Claus to the children of Coleman this year.

The social committee of the lodge have the matter in hand and have already started on their work of making a canvas of Greater Coleman for the purpose of securing a complete census of all children ranging in age from a few weeks up to and including 12 years.

A monster Christmas tree, burdened down with presents for all these youngsters, with jolly old Santa Claus in charge, will be held in some suitable place in town a few days before Christmas, and nothing will be overlooked by the Elks to make this affair a real children's night.

## Conservative Rally Friday

Mr. John Herron, Conservative standard bearer for the constituency of Macleod, will address a mass meeting of the electors of Coleman in the Grand Theatre, on Friday evening of this week. Mr. A. L. Smith, K.C., of Calgary, will also speak at this meeting.

Mr. Herron needs no introduction to the old timers in Coleman, while Mr. Smith is reputed to be a very capable speaker. The time of the meeting is 7:30 p.m., and a cordial invitation is extended to all electors.

## More Music, Less Strife

Music does more than soothe the savage breast. People who sing together don't often fight among themselves. We have never heard of an orchestra practise ending in a free-for-all, nor of a band rehearsal ending in a battle royal, though there may have been such happenings. The point is, music is appealing to the heart and palliating to the fever of everyday strife. Our community has civic singers, teachers and leaders. Every movement that tends to develop the musical talent in the community ought to be given all the encouragement that is possible. It is so easy to let others perform the music and ourselves do the listening. The danger is that we may all become listeners, with too few leaders.

"Dad," said Tommy, "the teacher said something today about finding the greatest common divisor."

"Good gracious!" exclaimed his father in disgust, "haven't they found that thing yet? Why, they are searching for it when I was a boy."

There is no substitute for a real go to substitute

SOLD IN BOTTLES ONLY

## Voting

Throughout Canada on October 29 the question, "Have you voted yet?" will be asked not once but thousands of times. What the questioner will mean, of course, is, have you exercised your franchise? That is the special meaning, but is there not a much deeper, more significant meaning? Do you really "vote," or—just mark a ballot paper? There is a vast difference between the two.

Admittedly it is a duty every elector owes his country to exercise his or her franchise when called upon to do so. It is just as much a duty as paying taxes or obeying the law, even though no penalty is imposed for non-fulfillment of the duty.

Electorates will be urged to "vote early, and this is good advice because there are always people who will leave the performance of this duty to the last minute, while circumstances may force others to do so. Everyone who can should, therefore, go to the polls as early as possible on election day. But while making haste to the polling booth, do not be hasty in your act of voting.

To come back to the original question, are you really going to vote or merely mark a ballot paper?

Are you going to vote Conservative, or Liberal, or Progressive because your father or grandfather voted that way, or because some friend or relative is so voting, or because the majority of people in your neighborhood intend to do so and you wish to be with the local majority? If so, you are not voting at all, but just marking a ballot paper.

Or are you going to vote for a particular party solely because you voted for it on previous occasions and you propose to be "consistent"? Consistent to what? A party name? A policy or policies which may have appealed to your forebears or yourself in years gone by and which were designed to meet then existing conditions but which do not necessarily have any force or bearing in 1925?

Perhaps it is your intention to vote for a certain candidate regardless of the party or policy he supports solely because you know him and like him—although you may not know him, you do not like the opposing candidate or candidates.

Again, it may be that you are influenced by your decision as to how your ballot paper will be marked by some purely local or sectional consideration which has little or no bearing on the welfare of Canada as a whole.

It may even be that some people have decided to mark their ballot papers in a certain way with no more worthy object in view than to "kill the vote" of somebody else they do not like but who they understand intends to vote the opposite way.

Not one of these reasons supporting an intelligent marking of a ballot paper, nor are the motives actuating such marking ones worthy of an intelligent, patriotic Canadian citizen. Such conduct cannot honestly be dignified as "voting." It is merely ballot paper marking, and, so far as Canada is concerned, worse than the usual.

Stop and consider. On October 29 you are not voting primarily for a candidate or a party; you are voting for Canada, or ought to be. Parties and candidates are but the means to an end, but it is Canada; its welfare and progress which should keep constantly in mind and guide the eye and hand when marking a ballot paper in the secret and sacred precincts of the polling booth.

True, the candidate beside whose name you place a cross is your choice to represent you in the Parliament of the Dominion for the next four or five years. True, the election or rejection of that candidate will have a bearing on the issue as to which party will be entrusted with the responsibilities of government and of formulating the policies and directing the administration of the Dominion.

But these two issues—the really vital issues—are big enough to call forth the exercise of every elector's best judgment, unclouded by any of the petty, inconsequential, yet, altogether nervously, considerations and motives which, unfortunately, are sometimes allowed to sway the feelings of people in times of election excitement.

If you were a shareholder in a large commercial enterprise attending the annual meeting of the company for whom you would vote as a director—men supporting policies which they were confident would result in increased business success and larger profits, or would you reject such men for some trivial reason or personal prejudice? Then remember on October 29 you are a shareholder in the greatest of all great Canadian concerns, Canada itself, and that you are choosing your board of directors.

On election day, really vote, and do not just mark a ballot paper. Instead of hurrying into the polling booth and hastily scratching a cross opposite a name, stop with pencil poised and ask yourself: What is the best service I can render my country today? Then VOTE as your judgment and conscience dictates. This is the essence of good citizenship.

## Claims Dominion Has Greatest Opportunity

Editor of London Paper Advises Canada To Pick Best Immigrants

"Canada has the greatest opportunity of any community on the face of the earth," stated J. St. Lee Strachey, editor, and proprietor of the London Spectator, in the course of a recent address to members of the Canadian Club at Ottawa.

"A great part of the world wants to pour into Canada," he declared, referring to the building up of the country by immigration. "Pick out the best of it, and leave the dregs."

Conditions in Great Britain were satisfactory, and he wished to impress this emphatically on the people of Canada. "High taxes have awakened us from a period of indolence and somnolence."

## NERVOUS DEPRESSION

### Why People are Low Spirited and Depressed

Nearly all women and most men suffer at times from fits of depression and low spirits. Everything seems a burden; the come periods of nervous irritability, headaches and weariness. People who suffer this way lack vitality because their blood is poor and nerves are starved in consequence.

The only way the nerves can be reached is through the blood. By enriching the blood with Dr. Williams' Pink Pills the starved nerves are supplied with just the elements they need. This is proved by the experience of Mrs. J. E. Davidson, 124 Ave., east, Vancouver, B.C., who says: "About three years ago I became very weak and nervous. I had pains in my side and back, and also suffered from frequent pains in the back of my head and neck. I was unable to do any kind of work about the house. I would wake with a start in the night and my heart would flutter so that it almost choked me. I tried much doctor's medicine, but it did me no permanent good. One day I read about Dr. Williams' Pink Pills and decided to give them a trial. These pills produced such a beneficial change in a short time that I kept taking them until I had used a dozen boxes. By this time there was such an improvement in my condition that friends would ask me what I was taking. Of course, I said it was only Dr. Williams' Pink Pills. I am now feeling like a new woman, and am doing my own housework. We would not now be without Dr. Williams' Pink Pills in the house."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Half a loaf is sometimes better than no chance to loaf at all.

**Women and Asthma.** Women are numbered among the sufferers from asthma by the countless thousands. In every climate they are found, and, less in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. B. Kellogg's Asthma Remedy has brought new hope and life to many such unfortunate ones, and, without any sedation, show the enormous benefit it has wrought among women everywhere.

Chairs are always tramped in the hands of the police.

## SUNDAY SCHOOL LESSON

OCTOBER 25

PAUL IN EPHESUS

Golden Text: For the love of money is a root of all kinds of evil. 1 Timothy 6:10.

Lesson: Acts 18:18 to 19:11.

Devotional Reading: Isaiah 55:8-12.

The Text Explained and Illuminated

**A Silverthorn Stirs Up a Riot**

Against Paul at Ephesus, verses 23-25.

The goddess Diana (Artemis), whose chief temple was at Ephesus, was the mother-goddess, the goddess of fertility, "the fountain of nourishment, the reproductive power that kept the great world over the same amid the constant flux of things." Her shrine was a most important industry in Ephesus, and the making of miniature shrines for them and for the Ephesian temple was an important industry. There were thirty shrines which were worn as amulets, larger ones which were offered as gifts to the goddess, or were kept in the homes and even placed in the grave beside the corpse. A sign that the dead man or woman of terra cotta had been found, but none of silver, the latter being the work of the Ephesian artists, and the cause of their infatuation value. It was among the makers of these small shrines that a small stir arose concerning Christianity, or the Way.

Demetrius, a silverthorn maker of silver shrines, naturally had considerable business to transact and had therefore a hold upon them. These he gathered together with the workmen of like occupation, workers in terra cotta and marble, and he misled them by their property came from their goddess. And then he reminded them how "Paul" not only in Ephesus but throughout all the province of Asia had made money out of their gods made with hands were not gods. There was grave danger that their trade would be taken away from them.

The Oil of Power.—It is not claimed for Dr. Williams' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a "household" oil. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. That the powders will speak for themselves in such a way that the child will not object to them. They act speedily and thoroughly, and the child can use them without fear of injury to the constitution.

In Persia it is the custom of the Shah to send a gift of a horse to a foreign minister or ambassador after the presentation of his credentials.

As a vermifuge an effective preparation is Worm Gravel, Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

The number of delayed calls returned to the print at Philadelphia, Pa., to be re-mailed would fill five trains of 25 cars each, holding 50,000 pounds to the car.

**Live Poultry Shipments**

Nine cars of live poultry have been shipped from Manitoba points in the last month or two by the Manitoba Co-operative Poultry Association, according to a statement made by the Dominion Government poultry promoter. Shipments were made to Winnipeg and other western points, as well as the United States.

On an average a city dweller breathes from 25 to 30 pounds of smoke and soot every year.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

An Illinois woman died recently at the age of 95, leaving 111 descendants.

## Nobel Prizes Total About Four Million

Germany and France Head List With England Third

Prizes of about \$4,000,000 given to 125 winners, will be the record of the Nobel Foundation on the occasion of its 25th annual awarding of prizes at the end of this year.

Funds of the foundation now amount to slightly over \$8,000,000, and the prizes to be given this year will be 118,165 kroner each, or about \$21,000. Besides the five regular prizes of 1925, three were held over from 1924, namely, the awards in physics, chemistry and the peace prize.

Of the prizes awarded during the years 1901-1924 nine have gone to America and seven to Sweden. Germany tops the list with 28 prizes, closely followed by France with 21 and England with 14 awards.

## Cold on the Chest

### Best Treated This Way

When the throat is sore, and the chest is tight and full of congestion, something strong enough to penetrate through the tissues must be applied. To get the quickest results, use apply good old Nerville. Rub it in deeply; it won't burn or blister, but will bring the blood to the surface, will draw out the inflammation and subside your cold and make you quick in a short time. No other liniment so potent, so strong, so quick to bring soothing and relief as reliable old Nerville. Nearly fifty years in use, and sold in most countries throughout the world in large 50c bottles.

## Visits Balmoral Every Year

Matron of London Hospital Spends Fortnight With Queen Mary

No autumn passes without the paying of a long visit by Miss Agnes Kewer to the King and Queen at Balmoral. She stays for a fortnight, then returns to her hospital, and then, as a nurse, and accompanies the Queen on most of her walks in the grounds, as well as longer excursions.

No other woman subject of any rank is housed by the Sovereign for that way; she can truly be said to be regarded as one of the family during her stay. For many years Miss Kewer, or, as she is preferred to be called, "Agnes Agnes," has been matron of the King Edward VII. Hospital for Officers, in Grosvenor Crescent, London. When Prince George had to undergo an operation three years ago it was there he was nursed, and when members of the royal household require to go to hospital they choose that managed by Sister Agnes.

In Persia it is the custom of the Shah to send a gift of a horse to a foreign minister or ambassador after the presentation of his credentials.

As a vermifuge an effective preparation is Worm Gravel, Worm Expeller, and it can be given to the most delicate child without fear of injury to the constitution.

The number of delayed calls returned to the print at Philadelphia, Pa., to be re-mailed would fill five trains of 25 cars each, holding 50,000 pounds to the car.

**Live Poultry Shipments**

Nine cars of live poultry have been shipped from Manitoba points in the last month or two by the Manitoba Co-operative Poultry Association, according to a statement made by the Dominion Government poultry promoter. Shipments were made to Winnipeg and other western points, as well as the United States.

On an average a city dweller breathes from 25 to 30 pounds of smoke and soot every year.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

An Illinois woman died recently at the age of 95, leaving 111 descendants.

**KRAFT K CHEESE**

A handy size package for occasions when half a pound is "just right."

**Bears Charmed Life**

Grand Duke Cyril of Russia Has Many Narrow Escapes

Grand Duke Cyril of Russia, apparently bears a charmed life. He was blown up on board a Russian battleship at Port Arthur during the Russo-Japanese War and since has had several narrow escapes, including a recent attempt to ascend the Russian throne.

Cyril was a passenger recently on the Paris/Trafalgar express which, while running at a high rate of speed, dashed into a freight train, during a fog, 18 miles from Strasbourg, France.

Two train loads were killed in the collision and one passenger was slightly injured.

Cyril was not hurt.

**Being Pinched Politely**

Many of the new London police recruits are said to be men of good social standing, and even college education. It is, of course, much nicer to be run in by a man whom you could safely take home to tea—Punch, London.

**Mothers Treat Colds**  
The New "Direct" Way

No Longer Necessary to "Dose" Children With Internal Medicines to Break Colds.

Children's digestions are easily upset by too much "dosing." Vicks VapoRub being externally applied, does not upset little stomachs.

At the first sign of a cold, apply Vicks VapoRub freely. There is nothing to swallow—rub it on.

or any other cold trouble, apply Vicks VapoRub. There is nothing to swallow—rub it on.

## NOMINATION OF CANDIDATES FOR FEDERAL CONTEST

Ottawa.—Official nomination of candidates took place in 27 out of 241 federal constituencies between twelve and two o'clock, on Oct. 16th, and the Dominion general election now assumes a more definite form. In three constituencies of Quebec, seven of Ontario, four of Manitoba, five of British Columbia, four of Saskatchewan, three of Alberta, and the Yukon, candidates declared themselves officially amount of \$200 with the respective in the contest, depositing the legal returning officers. While the official nomination of a candidate does not necessarily mean that he is in the contest until the close of the polls, withdrawal involves the forfeiture of the deposit.

The consequences in which nominations took place today cover large areas, are somewhat sparsely settled and, in many cases, are provided with but slow and primitive means of communication between the centres and the outlying districts. In the north this has resulted in deferred elections. Now, with an extra week in which to do the work and distributing the ballots, all Canada will vote on the same day, October 29th.

## French Casualties in Syria

Over Six Thousand Killed Or Wounded Since Campaign Started

Paris.—French losses in Syria since France took over the mandate of the League of Nations have amounted to 6,410 killed or wounded up to July 31 last.

Premier Painlevé made this announcement to the finance committee of the chamber. He said he did not have the casualties of the August and September Soudan campaign before him.

The mandate for Syria was assigned to France by the supreme council of the allied powers, April 28, 1920, and was confirmed by the League of Nations, July 31, 1922.

## Giant British Dirigible

Plan to Launch and Pick Up Planes in Mid-Air

London.—When the R-33, Britain's great airship, makes its next trip, expected shortly, it will begin a series of experiments in launching and picking up aeroplanes in mid-air.

The place to be used will be a light B-20. The idea behind the experiments is to use airships in war as mother ships for a flock of hawks to be launched from behind covered clouds of smoke to harry the enemy. An airship like a trapeze has been fixed below the airship to which the plane will be hooked. It will be launched from the trapeze and is to attach itself to the trapeze on its return.

## Will Observe Anzac Day

April 25 Will Be Complete Holiday in Australia

Melbourne.—The Legislative Assembly of Victoria has passed a bill providing for the observance of Anzac Day, April 25, as a complete holiday in that state. Anzac Day is the date on which the combined Australian and New Zealand army corps landed at the Gallipoli and saved such splendid service to the allied cause in the war. The initials of the forces of the two star dominions were formed into the word Anzac.

## Register At The Hague

Victoria.—After depositing in the Peace Palace at The Hague, Holland, the register signed last May by 35,000 pupils of British Columbia schools, pledging themselves to observe the spirit of fair play and good-will among all peoples, Harry Charteris, secretary of the British Columbia Teachers' Federation, has returned to his home here.

## Extension For Edmonton Post Office

Edmonton.—Extensions to the Edmonton post office which will involve the building of a new wing may be undertaken next year by the Dominion Government. The purchase of property, involving an outlay of some \$25,000, has already been authorized by order-in-council and part of this amount has been paid over.

## With Full Military Honors

Winnipeg.—Winnipeg citizens of all walks of life paid their last respects to Brig.-Gen. H. N. Ruttan, who was buried here with full military honors.

Japan may send six military units to the United States in 1926 for journey play.

W. N. U. 1069

## Maritimes Ask For Freight Rate Cut

Brief Prepared For Board of Railway Commission Published

Halifax.—The brief prepared by F. G. Cornell, freight rates expert employed by the three Maritime Provinces to present their case to the board of railway commissioners for Canada, has been distributed here for publication.

It asks for "special attention from a transportation point of view" in consideration of the geographical position of the Maritimes and nature of their products in comparison with those of other provinces and in view of the fact that "the prosperity of the Maritime provinces depends to a serious extent upon their ability to merchandise the products of their natural resources and their manufactured products in the central and western provinces."

The brief declares recent changes in freight rates have wiped out considerations which were justly due to the Maritimes and provided for in previous agreements. It asks for substantial reduction in rates of freight originating in the Maritimes for Western and Central Canada and on freight passing through North Atlantic ports in the Maritimes.

## Trade With Russia

No Early Prospects of Trade Relations Between Britain and Soviets

Ottawa.—There are no early prospects of trade relations between Soviet Russia and Britain being restored with the British Government in the near future. Lord R. H. B. Russell, former home secretary in the MacDonald Labor Government, in an interview here.

He was suggested that such a happening might have distinct effects on Canada in the matter of wheat marketing. Mr. Henderson said that there were other considerations besides wheat, and that Russia was to regain her large production of wheat, she would need agricultural implements, many of which Canada was able to supply.

Asked about conditions in Britain, the former home secretary said it was the industries which depended on export trade that were the hardest hit by present conditions. He said the feeling was strong in Britain in favor of Germany being admitted to the League of Nations, as it was felt that would help to ease the diplomatic situation and give better assurance of peace. He said that happened here, he would be little better off as regards economic conditions, he said.

## Would Undertake Another Arctic Trip

Captain Bernier at Seventy-four Is Still Vigorous

Quebec.—"I am still young and vigorous and as ready to start off again as I believe my services are necessary, but if I am judged by my worth and have earned a pension I hope the government will grant it me." This spoke the veteran skipper, Captain J. E. Bernier, commander of the Canadian Government auxiliary schooner Arctic, and noted explorer, to a gathering of newsmen. Captain Bernier, who is in his 74th year, had just returned from a trip to northern waters undertaken at the request of the authorities at Ottawa. While at the coast of Greenland he suffered a bad fall when struck by a swinging boom, but made light of the bruised side that resulted from the accident. However, he will be X-rayed. It is believed the voyage just completed by the Arctic was the last she would take with the veteran captain at the wheel.

## Western Grain Port

Predicts Large Grain Movement Out Of Vancouver This Season

Vancouver, B.C.—The port of Vancouver will handle at least 65,000,000 or 70,000,000 bushels of export grain during the shipping season of 1925-26, according to a prediction made by Leslie H. Boyd, K.C., chairman of grain board of Canada.

Mr. Boyd said he was not in a position to give any statement officially, but from his general knowledge of conditions he thought Vancouver would see a very large movement.

## France Can Use Wheat Flour

Paris.—France is to return to the use of all wheat flour as a result of the good harvest this year, and the law which made it obligatory, because of the large harvest, to add four per cent. of rye to all the wheat flour used in France, is to be abrogated.

## Will Study In Alberta

Montreal.—A party of 20 youths, conducted by Miss Ethel Nichols, who reached here by the White Star liner Regina proceeded to Alberta, where they will study Canadian agricultural methods.

## Britain Wants Western Butte

London Importers Send Representative to Saskatchewan to Solicit Shipments

Regina.—Representing one of the largest importers of farm and dairy products in the United Kingdom, A. J. Mills and Company, London, G. V. Gillespie has arrived in Regina, the first representative of a London firm to come to Saskatchewan in quest of better for the English market. He is soliciting direct shipments from the Saskatchewan Co-operative Creameries and other firms instead of through speculative channels.

Mr. Gillespie said the improvement in Saskatchewan butter in recent years, and even in the last year, was "amazing." British importers. Western Canadian butter had been elevated to a position second only to that of New Zealand, a country which for many years, had held first place in quality.

He believed the Canadian west could, and would, capture a very large share of the total imports to Great Britain, and expressed his belief that the dairy trade in the west would grow to vast proportions.

## Would Abolish Level Crossings

Attorney-General of Ontario Says This Is The Only Safe Guard

Toronto.—Having in mind the terrible tragedy at Scarborough Junction, near here, when six persons lost their lives when an automobile in which they were riding was struck by a Canadian National train, Hon. W. F. Nickle, attorney-general of Ontario, stated that the abolition of level crossings is the only real safeguard to human life.

He refused to entertain any thought of half-way measure such as compelling motorists to come to a stop at every level crossing, as suggested by an official of the Canadian National Railway.

## BRITAIN TAKES STEPS TO CURB RED ACTIVITIES

London.—Police raided the headquarters of the Communist party in London and also one of the London branch offices and arrested six Communist officials. Numerous papers and publications were seized.

The Communist political bureau later issued a statement, describing the incident as "the first step in the new attack on the working class."

This, says the bureau, was foreseen, and it recalls the party's advice to form a workers' defense corps.

"The Communist party," it declares, "will not, and cannot be, smashed. Close the ranks, strengthen the party, continue to fight for class unity against the coming capitalist offensive."

Communist activities in England during the past few months have gone far beyond the propaganda and industrial agitation stage. Attempt has been made to foment a revolt against the government and a large membership has been built up, particularly among the foreign population. As a result of this threat against organized authority, police action commenced which was deemed necessary.

## Talented French Artists Arrive in Canada

New company of talented French artists which Mr. J. A. Gavin has brought to Montreal from Paris for a season of French comedy, photographed upon their arrival in Montreal.

The company crossed from Europe on the Canadian Pacific steamship Melita and remained in Quebec for a week or so before coming to Montreal to open the season. They are (left to right, row) Miss Marcelle Blum, M. Georges Colin, M. Jean Martin, M. M. Paul Meunier, a local theatrical man, (back row) M. M. Hermand, M. René Blanchard, M. G. Vitry, M. René Monie, Mme. Marthe Maras, Mme. Mala Floriani and M. Adeline Fournier. Two members of the company, Mme. Marguerite Courten-Lambert and Mme. Jeanne Dierley were absent when the photograph was taken.

## FRENCH VIEWS ON FUNDING OF WAR DEBT TO U.S.

Paris.—The French Government intends to send a counter-proposal to the United States relative to the funding of the debt to America, it was officially admitted at the ministry of finance.

The proposal brought back from Washington by the debt commission for a five-year "breathing spell" during which France would pay \$40,000,000 a year, still being studied with no final decision in sight, the United Press was told.

However, the reported intention to make a counter-proposal is taken to mean that "the result of the Washington negotiations has already been rejected."

## Secure Settlers For Canada

New Methods To Be Adopted By Office In Britain

London, Eng.—How interviews will replace the type-caster, and the personal touch will be substituted for correspondence in order to secure settlers for Canada, was explained by W. Bruce Walker, Canadian director of European emigration, in an interview with a representative of the Morning Post. Mr. Walker stated that though the Dominion wants agriculturists, those who go on the land now will save the way for the unemployed industrial surplus when other industries expand.

The Post, in an editorial extolling Mr. Walker's plan, reports that some 100,000 and certain newspapers lead Canadians to believe that England's day is done and that the greater part of her population is existing on doles.

## Annual Sheep and Swine Show

Will Be Held November Third, Fourth and Fifth

Regina.—The annual sheep and swine show will be held here November 3, 4 and 5. It was decided at a meeting of the board of directors of the Exhibition Association held in the stadium. The dressed poultry show will be held November 3. Prizes valued at \$450 will be given at the poultry show. Professor M. C. Hermer, Manitoba Agricultural College, will be the judge.

A. J. McKay, MacDonald, Man; Professor H. Wood, Manitoba Agricultural College, will judge sheep. L. Hancock, Winnipeg, and A. P. Potter, Langhams, Sask., will judge swine.

## University Held On Culture

Victoria.—"Culture" which has no bearing upon life, is exotic, artificial and as meaningless as the hitherto on the back of a man's dress coat, or the none ring of an African sash," said Dean H. T. J. Coleman, of the University of British Columbia, who addressed the opening session of the British Columbia School Trustees' Association annual convention here.

## Fires Hurt Fur Production

Olympia.—As a result of forest fires which swept across from Northern British Columbia to Southern Oregon last summer, this section will produce less for this year than many years. The dense smoke and fires came at a time when most of the fur-bearing animals were rearing their young.

## Urges Demand For Imperial-Made Goods

Lady Cowan Asks Canadian Women to Put Empire First

Ottawa.—That the women of Canada should foster the idea now so prevalent among the women of England, of demanding Imperial-made goods, was the desire expressed by Lady Cowan, a well-known member of the British House of Commons, who is among the delegates to the Inter-parliamentary Union, who addressed a largely attended meeting of the Ottawa Lady's Auxiliary Women's Club.

Lady Cowan, who has been the president of the British Women's Patriotic League for the last five years, told of the work the women were doing in England.

The league has for its motto: "Our Country First."

"I am an internationalist," the speaker stated, "but I am a patriot and a lover of my country first."

Women today can become anything they want, Lady Cowan said. There are unlimited possibilities of public service and there is an open door to any profession. It won't be long, the speaker predicted, before there may be a woman premier.

## Sandow Dies In England

Was Professor of Physical Culture to King George

London.—Eugene Sandow, once hailed as "the world's strongest man," died suddenly Oct. 14 in London, where he had recently built up a practice as a health specialist. It is believed death was due to the effects of a motor accident in which he was injured some years ago.

He was the son of a famous Britisher, who he preceded as "the world's strongest man" and who died in Berlin recently. Sandow was of German nationality. He was born in 1867 and is said to have been tall in his youth.

Sandow was a great exponent of physical culture for the average man, and claimed anyone could become strong who underwent his course of training. His activities in this direction were recognized in England in 1911 with his appointment by Royal Warrant as professor of physical culture to King George.

## To Hold Conference On Seamen's Strike

Parties to Dispute Summoned to Meet in Australia

Melbourne, Australia.—A view of the improved shipping situation as a result of the report of the unofficial strike of British seamen being called off, Mr. Justice Power, or arbitration court, has summoned a conference of all the parties to the dispute for October 19 in Sydney. He states the dispute exists in all the Australian states and is a serious matter for Australia. British shipowners have declared the ports of Fremantle and Perth "black," and the British seamen have declared the shipowners' vessels "black," each side claiming the other is unfair, and the exports from Australia to England have been seriously retarded.

## SECURITY PACT TO PREVENT FUTURE WARS IN EUROPE

secretary, who said that he and Sir Cecil Hurst, the English jurist, had placed their services at the disposal of the delegates in an endeavor to reach an agreement concerning Germany's eastern frontiers.

Mr. Chamberlain was optimistic over the possibilities of bringing Germany and Poland together.

Locarno.—If France can secure suitable guarantees for her eastern allies it seems probable that the long sought for security pact which would apparently make future wars in Europe impossible will shortly become effective.

In principle the greater opinion of the pact has been agreed upon, but there still remains to be ironed out satisfactorily for Germany and France the question of guarantees for the integrity of Poland and Czechoslovakia.

There is optimism that a formula for this, in the nature of mutual guarantees under the League of Nations covenant, will be found.

The Polish problem, particularly the question of the Polish corridor to the sea, still troubles the conference, was the impression given by Right Hon. Austen Chamberlain, British foreign secretary.

## Increasing Gold Output

Toronto.—If the July and August rate of gold production in Ontario is maintained throughout the balance of the year, Ontario's gold output in 1925 will reach a total of \$30,500,000, as compared with \$25,469,500 in 1924.

## BRITAIN MAY CONSIDER LOANS TO AID MIGRATION

London.—The question of the British Government also may be loan to the Dominions for the encouragement of migration will be considered at a special meeting of the Liverpool chamber of commerce.

The chairman of the transport committee of the Liverpool chamber of commerce has informed the chamber that in his opinion it would be of enormous advantage to the empire if the government allowed Canada, Australia, New Zealand and other dominions from £200,000,000 to £300,000,000 free of interest for five years with the provision that the money should be repaid at the end of that period with five per cent. interest, a further five per cent. as a redemption fee, practically amounting to about two per cent. interest per year. At the present the country is spending more than £160,000,000 a year in payment of debts which have brought no benefit at all, he says.

## Discovers Coral Island Group

Japanese Explorer's Find Not Described in Sea Charts

Fukuo.—The newspapers report that a group of coral islands, known as the Toku-toku Islands, the total value of which is estimated at 200,000,000, has been discovered in the South Sea by a Japanese explorer, M. Inouye.

The Japan Geographical Society has started a technical survey of the islands, it is said. They are situated about 350 sea miles off Mindanao Island, Philippines, and the actual position will be made public after the discovery is reported to the International Geographic Association, states M. Inouye.

These coral islands are not described in the sea charts and the largest one is reported to be some fifteen miles in circumference. They are uninhabited.

## Plane Released From Dirigible

Experiment Carried Out Successfully At Anstuds of 3,000 Feet

Fulham.—An experiment in releasing an aeroplane from an airship while in flight was successfully carried out when the dirigible R-33 took off from a mooring at a height of 3,000 feet. The experiment was piloted by Lieutenant R. Leffaga, chief test pilot, the monoplane was released at an altitude of about 3,000 feet and made a successful flight.

After cruising about for a half hour, Lieut. Hargraves attached his plane to the dirigible.

It was once more released and resumed his solo flight, while the R-33 continued her cruise and later returned to her mooring mast.

## Meteorite Weighs Seven Tons

Aberdeen.—The largest meteorite in the world has just arrived here from Greenland aboard the Danish schooner, Sokongon. Nobody has yet seen the stone, but Captain Edgewood, of the ship, says it weighs seven tons. Estimates are attributed with the statement that the meteorite fell in 1918 and that they had been dragging it toward the coast on dogs sleds since 1923.

## Missionaries Sail For China

Toronto.—Delayed two months by conditions in China, a number of missionaries of the United Church of Canada have sailed from Vancouver for Shanghai to commence the long journey inland to the field in Szechwan province, West China. Their leader, T. Edgar Newman, has been at Vancouver more than two months, awaiting permission to sail.

## Grain Growers Meeting

Regina.—The annual meeting of the Saskatchewan Grain Growers' Association will be held in Saskatchewan, probably during the third week in January. It was decided at a meeting held here of the executive of the S. G. G. A. and the women's section.

## Should Exercise Caution

St. Paul, Minn.—Frick may develop stomach trouble, and physicians may lead to acute heart disease, Carl D. Camp, professor of neurology at University of Michigan, told the International Graduate Assembly of Physicians.

## Will Fund War Debt

Bucharest, Rumania.—The Rumanian newspaper announces that M. Tulea, minister in London, has reached a tentative agreement with the British Government for the funding of Rumania's £25,000,000 war debt to Great Britain.

## THE JOURNAL

2ND AVE., E., COLEMAN, ALBERTA  
E. F. GARE, - Editor and Publisher

An independent paper published every Thursday. Subscription rates: \$2.00 per annum in advance; to U.S. and Great Britain \$2.50.

Legal, government and municipal advertising, 15c a line for first insertion and 10c a line for subsequent insertion.

Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

THURSDAY, OCTOBER 22, 1925

### TARIFF FOR ROBBERY

Higher tariff duties will make a certain number of people richer, but they will make the great consuming masses poorer. A higher tariff means that everyone will have to pay a little more for the necessities of life and the implements of production. Of what earthly benefit would it be to a manufacturer to have the tariff duty increased on what he produces, unless he was thereby enabled to charge more for that product?

A higher tariff will exclude imports and thus give the Canadian manufacturer complete possession of the home market. But of what avail would that monopoly be if he did not charge a higher price than he is now receiving?

Mr. Meighen argues that prices are lower in the United States than they are in Canada. If that be the case, it must be that our domestic manufacturers take advantage of the tariff they already enjoy against American imports and mark up their prices accordingly. If the tariff be increased, they will make their prices higher.

Are the people anxious to pay more than they are paying now for their clothing, their hats, their shoes, their stockings and everything they wear? Are they anxious to pay more for food, raiment and shelter? Are they anxious to lessen the purchasing power of whatever money they have? If so, then let them by all means support Mr. Meighen and his candidates.

### KNOW WHEN YOU'RE LICKED

A prominent manufacturer said recently that many people are held back in life because they will not forget defeat. His point was strikingly made to show that too often people spend too much time bemoaning temporary losses.

There are too many "post mortem" examinations held over the remains of a bright idea that failed. The same time and effort spent in brooding over a past transaction or incidental defeat could be employed more profitably in accomplishing the next task; for, in the lives of all of us, that next task will surely come.

Conservative politicians in Canada are singing the praises of the United States. They are telling the electors how prosperous things are on the other side of the line under high protection, and are making much of Canadians leaving Canada seeking work in the States. We in Coleman have known of some of our citizens who have gone there and have returned. Ask some of them if the statements made by these Conservative orators are true? Many of our citizens who have returned will tell you they are glad to get back to Canada, and that there are thousands more now living in the States, who would also be glad to get back if they had the money to make the trip.

The eighteen months of Meighen government were about the worst that this generation of Canadians have ever experienced. Hundreds of thousands of workmen were out of work, the Canadian dollar was only worth 85 cents and over 130,000 Canadians left the country and went to the States. "Once bit, twice shy."

### Perils of Sectionalism

A plea for the avoidance of sectionalism in Canada was made by Sir Arthur Currie, principal of McGill University, in an address at Vancouver on Thursday. "We must all be for the whole of the Dominion," he stated, "and there must be a measure of give and take for the good of the nation. There must be give-and-take as between agriculture and manufacturing. There must not be free trade to the detriment of the one class, nor a tariff that is for the benefit of the other alone."

Sir Arthur's plea for the avoidance of sectionalism in Canada is not a new one, but it bears repeating. Such an appeal has been made "many a time and oft" in the Dominion, but the trouble is to have it put into practice. Practically all Canadians profess a desire to avoid anything savouring of sectionalism, but there is lack of agreement when it comes to working the doctrine out.

Canada is admittedly a difficult country to administer. The Dominion is of such huge expanse and there is such a variety of interests to consider, that the task of statesmanship is rendered very difficult. The population, too, is so relatively small that problems such as those of taxation and revenue are made exacting and acute. Racial diversities is another thing that enters into the danger towards sectionalism. Then there is the clash of agricultural and manufacturing interests.

National unity should be one of the great objectives of all good Canadians. There must necessarily be the spirit of give-and-take, as Sir Arthur Currie suggests. It is the doctrine easy to preach but at times almost baffling to exemplify. In the present election campaign, for instance, we hear of Western rights and Maritime rights, of the rights of agriculture and of the rights of manufacturing interests. All statesmanly men do us to endeavor to work out problems with an eye single to the welfare of Canada as a whole, and it is the duty of citizenship to assist to its utmost in rendering this task of statesmanship less onerous.

The penalty for stealing a woman's heart is worse than a life sentence: it means a lifetime of sentences.

"Wedding Party Attacked by Wasps,"—headline. Did it take all that to realize someone had been stung?

There are over 200 newspapers in Peking. Imagine that many editors fighting one another!

Remember, a fellow with some good ideas and a little pep is not necessarily a radical.

The road to wealth often means a detour to the road to health.

(1) Captain R. G. (Jack) Letta, commander of the Empress of Scotland just prior to teeing off from the deck of his ship as a member of the "Round the World Golf Club." (2) Captain R. G. (Jack) Letta, commander of the Empress of Scotland, teeing off the fairway in the first stroke of the "Round the World Golf Club" tournament. (3) R. G. Letta, skipper of the Empress of Scotland, teeing off the fairway in the first stroke of the "Round the World Golf Club" tournament. The idea of the club was first started by I. O. Upham, of the San Francisco Golf Club, who on a \$50 bet went ahead with the notion of teeing on foreign golf links across the world, playing one hole on every course with the same ball. He had all kinds of sport from losing his ball on a Chinese

Links and hiring twelve men to search for it, to finding the Copenhagen Golf Club, Denmark, occupied by the whole Danish army. Before returning to San Francisco he had played on 55 courses. Captain Letta is one of the latest members of the Club and a number of fellow members will sail on the Empress of Scotland on December 3rd from New York on the fifth yearly cruise of the globe undertaken by C.P.R. Vessels. The coming trip will cover 27,820 miles, nineteen countries, every kind of climate, race and tongue, and will return to New York April 10, 1926 from a trip occupying 129 days.

WORLD HAPPENINGS  
BRIEFLY TOLD

\$15k valued, at \$250,000 was stolen from a building in Madison Square, New York, by four robbers, who left the watchmen handcuffed and gagged.

Banking interests of Northern Italy are negotiating for the purchase of 40,000 acres of farm lands in Manitoba, on which it is planned to settle 800 families.

"In my opinion the Indian uses less drugs in his daily life than the Englishman, Canadian or American," declares Wardlaw Milne, Kidderminster, British parliamentary member.

The mystery surrounding the destruction of beehives at the rectory of Les Peres, Redemptorists, Ste. Anne Des Chenes, Man., was solved when a 320-pound black bear was shot and killed in the act of robbing a hive.

Western ranchers and farmers will stop raising cattle unless the discrimination against them in shipping for export is removed, declares Dr. R. Russell Ormiston, Winnipeg, of the Dominion department of agriculture.

Leon Trotsky, his health undermined by his strenuous labor in the revolution, was assigned him to his return to Moscow five months ago, but has been compelled again to relinquish active participation in the Soviet regime.

Great Britain and Ireland reported a decrease of \$4,000,000 in ship construction for the past three months, while the total world decrease was 150,000 gross tons. Germany showed the greatest drop, losing 100,000 tons.

A Bononia farmer at Sofia has become rich beyond his dreams. He has sold a huge sack of turnips for \$25,000. The value of the turnips consisted in its marbled-like veins and cross-color patches.

Royal household budgets these days are subject to the same economic laws as those of humbler individuals, and Queen Wilhelmina has found it necessary to notify all her employees that their salaries will be cut by 10 per cent, as from January 1 next.

A long standing superstition that a hoodoo follows any attempt to produce on the stage the life of Edgar Allan Poe, was shattered when J. H. Mayers, manager of the Liberty Theatre, where a play of that nature has just proved a failure, died of pneumonia.

The wharf at Jeddah, on the Charlotte Island, R.C., and the entire saltery plant of the Imperial Trading Company, a Japanese concern, collapsed and was precipitated into the sea, imperiling many lives and causing an estimated many thousands of dollars.

Complete removal of the sales tax in Canada will be one of the subjects brought forward for discussion at the National Conference of the Boards of Trade which will be held in Winnipeg this winter. It was announced following a meeting of the council of the Vancouver, B.C., board.

## Flying Boat Will Be Huge

Machine of Future Will Also Attain Great Speed

The flying-boat of the future, carrying 100 passengers at a speed of 100 knots, was described at a meeting of the British Association by Oliver Simmons.

He told the engineering section how this giant vessel, built with two decks, would make non-stop flights of 1,000 miles, or cross the Atlantic with one stop in thirty-six hours.

Such a commercial machine would probably have an all-steel monoplane body of some 6,000 square feet wing area and 220 ft. span. The power units would be housed in an engine room built into the thick wing, some 30 ft. from the hull, and the output from each room, at full revolutions would be conveyed to the propellers.

The hull would be arranged in two decks to provide spacious accommodation for a hundred passengers. The speed would exceed 100 knots, and the boat would undertake flights up to 1,500 miles without alighting.

By slightly reducing the number of passengers such a boat could fly from Europe to America with only one stop, at the Azores, and accomplish the whole flight within 36 hours.

## Apples On Prairies

Planting of apple seed in Manitoba and other sections of the prairies is rapidly increasing, according to the superintendent of the Modern experimental station. Even five acres of five varieties from Rathwell, Manitoba, recently reached Winnipeg. They are all of Russian origin, and the largest measured eleven and a quarter inches in circumference.

An almanac, printed in 1643, was the first book in Norway.

W. N. U. 1568

## A Grateful Tourist

American Tourist Has Pleasant Recollections of Trip in Canada

As the tourist business is the nation's business and as the Canadian people are Canada, they will be glad to know that the natural resources of the interior have received many letters of appreciation from tourists who have visited Canada the past summer. Herewith are two letters which, while they were sent to the above branch, were really intended for the Canadian people. Names will not be mentioned, but the letters are too good to be just buried in files.

Early in August an American tourist wrote:

"I am leaving here on Monday, August 24th and will go through Canada from Detroit to Quebec. Then, if roads are good, up into that country, on into Riviere du Loup and down to Fredericton to Halifax and St. John, N.B. Could you suggest any way particularly for me to go and find better roads?"

"I thank you for any help you may be able to give me, and for your trouble in this."

The natural resources intelligence service supplied the writer with a detailed route, which was evidently satisfactory, if one may judge by the next letter:

"We have just returned from what has been one of the most interesting motor trips we have ever had. I want to thank you for your aid in planning our trip, and the very clear maps you kindly sent me."

"While on the subject let me compliment the different provinces of Canada on the good condition and upkeep of their highways, and also the efficiency of our tour guides, who are of continued improvement to these roads."

"We will hold very pleasant memories of our trip, due to the many courtesies of your government and the people we met in Canada."

It is just such little courtesies as were received by these visitors along their route that make friends, and Canada and the Canadian people cannot have too many friends.

## Learning His Responsibility

Young Duke of Norfolk Will Be Worthy of Title

It is the result of the Duke of Norfolk to whom American visitors have given the title of "The Poor Little Rich Boy." They cannot understand why a youth of 37, who has inherited property valued at twenty millions sterling, should be kept in an ordinary house, instead of a castle, and should be limited in pocket money and in his recreation.

The "seventeen year-old son of an American millionaire" would probably have everything his heart desired. In Britain, however, the holder of an ancient title brought up to a sense of the responsibility of his title, and the Duke of Norfolk's, very wisely, training her boy in a way that will ensure that he shall be worthy of his honored title, and that the income of the estate shall be carefully conserved until he comes of age—Glasgow Herald.

## Against Law and Order

Field Marshal Haig Pays Respect To "Red" Movement

Field Marshal Earl Haig, in receiving the freedom of Bath recently, said: "It is to my mind a fitting tribute to the break-up of the army after the war and the future to make adequate national provision for the men, set free by the forces that are aiming, frankly and avowedly, at the breakdown of the social order. While the war lasted, the comradeship of all ranks left no room for the spread of the foul disunity that is now sapping the foundations of the state."

## Radio Craze Strikes Japan

Students Are Neglecting Their School Work to Listen-In

The radio craze has grown to such an extent in Japan that some of the middle school authorities in Tokio have issued orders that students shall not "listen-in" during certain hours of the evening, but shall devote these hours to their school work. The school heads found upon investigation that the youngsters were neglecting their school work in the evening to listen to the radio.

British Families Locate in Alberta Sixty-nine families from the British Isles have been brought over and placed on farms in Central Alberta under the settlement branch of the department of immigration and colonization since the end of April. These new settlers are all of a selected type.

The smallest animals in the London zoo are penguin mice from Western Africa. The mice are about the size of honey bees.

The capital of the island of St. Helena is known as Jamestown, and is strongly fortified.

## Girls' Attractive Suspender Skirt and Blouse

A charming frock featuring the pointed flare at the sides, which is bound to be a favorite with girls, whether on a vacation or at school. Individually in taste may be expressed by having the skirt of one color material, and the blouse of another, but harmonizing color. Many mothers have short ends of material in the sewing room, and this model offers an excellent opportunity to use them. The accompanying diagram gives a very clear outline of the frock, and a chart with full directions is included with the pattern. Sizes 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60, 62, 64, 66, 68, 70, 72, 74, 76, 78, 80, 82, 84, 86, 88, 90, 92, 94, 96, 98, 100.

Size 10 requires 2 yards of 36-inch material for the jumper, and 1 1/2 yards for the blouse. Price 20 cents.

Home sewing brings nice clothes while the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. The material is explained so that the inexperienced sewer can make without difficulty attractive dress. Price of the book 10 cents the copy.

## Money Pours In

Plenty of Funds to Restore St. Paul's Cathedral

Thanks to a heavy response from all parts of the world, which resulted in contributions continuing long after the time had officially elapsed, the fund for restoration of St. Paul's Cathedral has now reached the high mark of a quarter of a million sterling. The Times announces. For weeks past a small but persistent stream of contributions to the fund for the restoration of St. Paul's Cathedral, and at the end of August the grand total of subscriptions received since the appeal was launched in January amounts to a quarter of a million pounds.

A quarter of a million is nearly twice as much as the Dean and Chapter told their duty to ask for at the beginning of the fund, for their commission of experts who had taken over three years to consider the problem, put the required amount at £120,000 to £140,000. The appeal had not been before the public longer than a fortnight when, on St. Paul Day, the fund handsomely exceeded the greater of those two sums. It was evident, however, that that crowning day in response to the appeal would certainly not be the last on which money would be collected, and from then until now contributions have flowed in.

The Wheat Pool in Alberta

The Alberta Wheat Pool is making a drive for another 1,000,000 acres. It already has 32,000,000 acres representing more than 3,200,000 acres of wheat crop and it wants 10,000 more members.

Sheffield Plate

The so-called Sheffield Plate, an imitation of silver made by pressing or "swelling" this thin metal on to copper, was first made in England in the reign of George III.

## Increased Traffic

Through Suez Canal

Growth of Shipping Compels Continual Enlarging of Waterway

Unlike the Panama Canal, the Suez Canal has no locks. As first constructed, the canal had a depth of 24 feet. Later, this was increased to 36 feet; and work now in hand, when finished, will insure an average depth of not less than 40 feet. Big steamers now passing through the canal draw a maximum of 31 feet, and craft having a draft of 33 feet will use the waterway before long. In short, the growth of shipping compels the continual amplifying of the canal's dimensions so as to provide suitable leeway for the safe movement of the great tide of traffic.

Originally, the bottom width of the canal was but 52 feet, while at present it is 150 feet. The intention is to augment this to 300 feet. Today, the surface width of the canal varies from 310 feet (to 525 at some points). The minimum width is to be increased to 440 feet. Formerly, it was not possible for ships of more than 4,000 tons to traverse the canal, but now vessels of 20,000 tons can make the run.

The trip through the canal takes 16 hours—only 11 of which represents hours. About 15 ships go through the canal every twenty-four hours; and their navigation is supervised by expert pilots. In 1870, the number of vessels using the canal was 26, representing a total of 458,695 tons. During 1913, a matter of 5,985 ships entered the canal, and these vessels had a registered capacity of 20,025,841 net tonnage. Naturally, trade was interrupted during the World War. Recovery has been hampered, but the latest figures available—those for 1923—show that 4,621 craft entered the canal, with a net tonnage of 22,780,362.

## Refused To Dun

Distinguished Clients

Head of Berlin's Exclusive Fashion House Is Bankrupt

Head of the seventy-four-year-old fashion house of Christian von Dreyer, head of Berlin's most exclusive fashion house, refused to dun clients, his firm has been compelled to go into bankruptcy.

Von Dreyer designed gowns and hats for practically all the German Princesses, and when the "Empress" Herman started for Holland to join William II. in wedlock, she was styled in Berlin, long and to have her wedding gown and other clothes made.

Germany's upper 400 were quite as much charmed by the venerable head of the fashion house as by the staff, for Baron Christian always insisted upon personally waiting on all distinguished customers and putting the finishing touches on their gowns.

During the inflation period much commotion was caused in society and former court circles when it was reported that the British royal family was placing orders with von Dreyer and the London fashion shops started a big protest.

The Baron, who before the war conducted shops also in New York, Vienna, Paris and London, insisted that the staff of distinguished ladies must not be dunned. This gradually led to his liabilities exceeding his assets.

## Facing Another Problem

Railways Trying to Safeguard Autoists at Grade Crossings

Railway travel has been made so safe that the problem facing the road is not that of protecting passengers and employees, but of safeguarding the occupants of automobiles at grade crossings, said Carl R. Gray, of Omaha, president of the Union Pacific system, at the annual banquet of the national safety congress at Cleveland, Ohio, yesterday.

"The railroads have become vitally concerned about grade-crossing accidents not only because of injury and death to motorists, but because of the danger that such accidents may 'kill' trains," he said.

## Pure-Bred Poultry

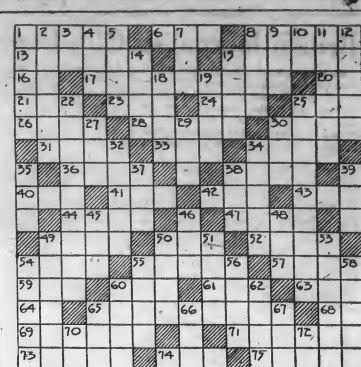

Evidence that Manitoba farmers are showing increasing interest in pure-bred poultry is demonstrated in the fact that in a recent car shipment of poultry loaded at Brandon by the Manitoba Co-operative Poultry Marketing Association in conjunction with the Dominion livestock branch, a very high percentage of the birds comprised the car were of standard breed varieties.

Million From Amusement Tax

Profits of the year ending October 31, 1925, the province of Ontario have increased its revenues by approximately \$1,470,000 from the provincial amusement tax. This is \$7,000,000 lower than 1924.

The United States contains about 15,000,000 persons of foreign birth.

## OUR CROSSWORD PUZZLE

## Horizontal

1—A liquid measure.

4—Unit of length.  
5—A word.  
7—Expire.  
8—Kind of wine.  
9—Bless out.  
10—Exists.  
11—A distant star cluster.  
12—Small mail.  
13—General course of direction.  
14—Mistake.  
15—Afternoon luncheon.  
17—Ground cover.

## Answer to Last Week's Puzzle

15—Large woolly plant.  
22—A grandfather's sister.  
25—A kind of bird.  
27—Watering place.  
29—Strive for.  
30—Abolish.  
32—The tire on the rear.  
34—One who gives rides.  
35—Think.  
37—A female relative.  
38—Pertaining to him.  
39—Metal in natural state.  
40—Interest (abbr.).  
48—(Girl's) name.  
49—Indian term.  
50—A word of fruit.  
51—Diplomacy.  
52—Dunes.  
53—A word ( slang).  
55—Part of a church.  
56—Bewaver.  
57—Bless out.  
60—An allowance by way of handicap.  
62—Small mail.  
65—Atmosphere.  
66—Formerly.  
67—Mistake.  
70—Note of the scale.  
72—Branch office (abbr.).

## The Causation Of Cancer

Faulty Diet Largely Responsible For This Ailment

Much public interest has manifested itself regarding the cause of cancer, but few people mentally digest the fact that to primitive races leading primitive lives cancer is unknown. With the advance of the disease, however, confined to civilization is supplemented the knowledge of thousands of cancer patients having been restored to normal health by the administration of certain assimilable potash salts.

Dr. Robert Bell, M.D., F.R.C.P.S., etc., for many years the leading cancer surgeon of Europe, promptly relinquished the extremely lucrative part of his practice when he demonstrated that cancer is a blood disease resulting from refined and faulty diet which deprives its consumers of the vital principles essential to disease resistance and health preservation.

In recent years, the English press has frequently drawn attention to the phenomenal success attending Dr. Bell's purely medicinal and dietetic treatment of the deadly disease. In conjunction with hygienic legislation.

A letter from Barton Beaumont, M.S.C.I., published in London Eng. Trib., 26 August, 1925, contains the following statement: "My own personal experience has proved of vital importance to many cancer victims: The following blood-purifying and oxygen-attracting element in the body. It forms over 70 per cent of the mineral basis of the red corpuscles in the blood. Owing to certain defects in diet and the preparation of food, the modern civilized human being suffers from 'potassium starvation,' and the increase of cancer is a corollary of this state of affairs. The great work of the late Dr. Forbes Ross finds an explanation in this discovery, also it explains the success secured in the treatment of cancer by the administration of assimilable potash salts—potassium and radio-phosphate of potash—which restore the recuperative power of the blood, thus causing the cancer to retrograde and disappear."

If fathers and mothers of the Great Northland would abandon their white flour, white sugar and other "foodless foods" from which all health-preserving potash has been refined, and adopt whole wheat bread, wholesome brown sugar and such "roughage," the diet itself is necessary to avert the now universal constipation, which is the farcure of a very cancerous cancer, much will be done to prevent the increase of this self-inflicted disease. "A body long, however, as only the eye and vitiated palate are pleased while the digestive organs are overworked with the disease and discomfort death terminate the life of each follower of the existing diet of a civilized blood, thus causing the cancer to retrograde and disappear."

Why have so many people the faculty of finding out things that are none of their business?

## Answer to Last Week's Puzzle

Vice-Chancellor Scores Undergraduates In An Address Phrased

An attack phrased in Latin was leveled at "Oxford hags" the trousers with enormous baggy legs affected by Oxford undergraduates—in Vice-Chancellor Joseph Wells in his annual Latin address.

The learned gentleman—to translate his remarks into English—described the "hags" as moss barbarians than anything which the Deans or Rectors (barbarian proper of the ancient world) ever wore; he also condemned the practice of undergraduates and "undergraduates" of sleeping coffee for hours at a time in Oxford.

Mr. Wells further deprecated the speed and number of automobiles in Oxford, asserting that they had made "the streets impassable save at grave peril and their noise resounded through all open spaces."

Oxford professors have forbidden first-year students to have automobiles while in school, in order that the cars may do as little damage as possible to quiet and health in the university town.

## Boy Immigrants

Plan Meets With Good Success In Alberta

Discussing the "Hoadley Boy Immigrants," the Hon. George Hoadley, provincial minister of agriculture in Alberta, said: "Last year we brought out to Alberta 61 boys and this year we are bringing out 100 from the Old Country. Last year yielded one failure. Money to pay the cost of preliminary schooling, while the boys themselves will be distributed among the agricultural colleges of the province and not kept exclusively at Vermilion."

Why have so many people the faculty of finding out things that are none of their business?

The seventh part of a grain of pure radium emits thirty-million electric particles in one second.

## Here and There

Sport conditions are very good in New Brunswick this year. Harold Chadwick operating hunting camps. In the province reports that at the end of September catches of speckled trout weighing 18½ lbs. were taken one day while a hunter took out a big game licence September 23rd and three days later had his deer and bear.

The world's most northerly police post, also the most remote of any human habitation, is to be constructed next year for the Royal Canadian Mounted Police at the far end of Ellesmere Island. Building materials and two years' supplies will be cached within easy freighting distance of the point where men will be detailed for patrol duty on the lonely shores of Kiel straits.

Appointments recently made through the office of the Comptroller Canadian Pacific Railway head-quarters are W. J. Cherry who becomes Freight Claims Auditor in place of J. R. Steele retired under pension rules, and W. L. Moran appointed Assistant Freight Claims Auditor. Both these gentlemen have been connected with the Freight Claims department for many years past.

## Canada A Step Ahead.

Conservative politicians are very fond of telling the electors about the '68 countries' that have increased their tariff since the war. Ask them how many of these '68 varieties' have a national currency that is at par. The Canadian dollar is over par. Only one other nation in the world has its currency even at par. Canada is out of step with the world alright, but we are a step ahead. Increased protection will put us back, not forward

## Value of Local Paper

The local weekly paper is the last line of defence which the small town merchant has at his command to tell his weekly store news to his customers, present or prospective. When, from any circumstances, the local paper is forced to close up shop, there is no other weapon with

B. C. —9.2 n.p.

which the small town merchant can  
continue to fight his battle, unless  
he resort to bills and that is much  
more expensive.

Probably the most educative illustration of the consequences ensuing from the cessation of the local weekly was supplied recently by the town of Thorold, Ont.

Owing to Thorold's proximity to St. Catharines, the daily press of that city found it a fruitful source of business, which was largely obtained at the expense of the Post. The editor decided that the town needed a lesson which he effectively taught. He discontinued the Post and devoted his whole attention to job work. In less than a year so anxious did the Thorold Board of Trade become to have the paper again published, that they secured for him more advertising than he could carry in an all home-print, eight page paper, and paid up at a rate almost double that prevailing before. Thorold, which has a population of over five thousand, did not realize what the home paper really means to a community until it was for a time discontinued.

## The Clutch of Crime!

Will it Tear Down the Church?  
And if it Does, What  
Will Happen?

Chaos would reign in all parts of the civilized world. Your property would be valueless. Your business would be wrecked. Your home would vanish. Your family would be unsafe. You and your neighbors would revert to the social condition of the cave-men when the strongest arm, swinging the biggest club, took whatever its owner desired.

It is the Church that has sustained whatever progress we have today. Religion rules mankind. It is the backbone of our law. It is the cornerstone of our faith in one another, without which there could be no business, no social stability.

It is the plain duty of every citizen to support the church. Are YOU doing your part? The Church wants you. Not just your money, but your presence at Church services, your active interest in Church enterprises, your work for Church extension, your personal effort in evangelization.

Non churchgoers are exerting a most malicious influence. Smug indifference is responsible for all that is wrong with our town. Do you sit idly by and criticize? Are YOU a shirker?

Prove yourself a good citizen, show your gratitude for the good things you have in life, by going regularly to Church—any Church. There are four places of worship in Coleman—one within walking distance of every home.

## Where Lies The Blame?

(High River Times)

Since the publication of examination results, there has been a great deal of discussion among parents and others interested in the welfare of the schools, from which it appears there is a great divergence of opinion as to where to place the blame. Criticism is offered by some of the school board, by others of the teaching staff, while some blame the department of education for its unsatisfactory curriculum and the continual changes therein. Blame is also placed by some on the laxity of parents and the failure of home discipline. In all probability, all are to some extent right in their views. The unsatisfactory conditions being the result of a combination of faults. The fact remains, however, the children in the high school should realize that they have reached an age when they must themselves accept the final responsibility. There are always some students who succeed and there is no reason why the others should not do so if a proper interest and ambition were displayed by them. Pupils should be made to realize that when they fail, the fault is ninety per cent theirs and they can not excuse themselves by seeking to find shortcomings in the school board, the staff, or the curriculum. Do the children of High River want to be of a lower order of intelligence and ability than those

of Blackie, Camrose and other points in the province where the students were nearly 100 per cent successful?

## New Sugar Factory Opens

The new sugar factory at Raymond, Alberta, will open for operations on October 23. Arrangements are being made for a ceremony in connection with the event, to be attended by prominent men from both the States and Alberta. The visitors from across the line will include President Heber Grant of the Utah Idaho Sugar Co., which established the Raymond factory. It is anticipated that this factory will be but the first of a number eventually to be established in the irrigated districts of southern Alberta. The factory expects to handle between 75,000 and 90,000 tons of beets this year.

## Do It Right

Tony was having his second son Christmas, and, being very anxious to have his name recorded correctly on the birth certificate, remarked to the clergyman:

"Will ya please nama my babe same as I giva ya?"

"To y, why do you make such a request?" asked the clergyman.

"Well, ya see—its like dis. My frist boy I tella ya I wanta heem Christ'nd 'Tom' and ya putta 'Tomaw' on heesa paper. Now, I wanta dees hoo nama 'Jack' and no wanta heem nama 'Jackaw'."

## House for Sale

5 Room Plastered House  
with or without Furniture.

The Price is Right and Location Good.
